I am appalled!! I cannot believe you allowed Microsoft off with such a slap on the wrist. That slap on the wrist is a slap in the FACE to the American Consumer. Microsoft is an abomination and needs to be stopped. What you have done is created a worse mess for someone else to clean up in the future. They will gloat and begin to think they are invincible. That even the US Government can't even take them down.

It's a disgrace to your post to allow such a blatant and bold monopoly to go unchallenged. Microsoft is an affront to the computing industry. You are more worried about the effect on the almighty dollar than you are protecting the American Consumer. I am an American Consumer and I'm outraged. I have NEVER bought a Microsoft product, and I never will. They don't need my money. They have everyone else's money.

You really dropped the ball, and I hope you don't continue making such outrageous mistakes.
